Wesley J. Roberts

My concern is about the proposed transmission line in Coulee City 100 ft. south of the existing Avista line. It's hard to believe anyone would make such a proposal. Our view is precious; every bit of clutter hurts. A power line isn't beautiful; it may, in fact, be harmful. I doubt you would be doing this in the Seattle-Tacoma area or stringing a new line in front of Bill Gates' house at the lake, so why do this to Coulee City people? Do the right thing, which is the proposed substation and power line Alternative 2, along the canal. Sincerely, Wes Roberts
